### Other advice and support

As a subscription client, you will have your own partner and you can contact them for two hours of advice and support on any accounting, tax or governance issues. If the help you need is more than a simple phone call or email, then we will flag the issue as more substantial. We will provide an estimate of the appropriate fee in advance and let you control how much help you need. Our training and support is designed to increase your capacity to enable you to do more yourselves.

*“Sayer Vincent has made a huge difference to us, being one of very few sources of reliable and comprehensive advice. We have taken advice on VAT generally, Gift Aid for shops and charity, VAT on a new build project, and organisational structure, none of which we would have been able to progress without the excellent support of the Sayer Vincent team. The training seminars we have attended have been really useful and we have been able to apply our knowledge to the advantage of the charity.”*
